# OVERVIEW

## ABOUT FLASH EXCHANGE TOKEN

Developed to offer the best of both worlds, the concept behind the Flash Exchange token is simple: Flash Exchange token allows its holders to receive 'exclusive discounts' as they buy cryptocurrencies on an exchange, as well as physical luxury goods, being the first of its kind.

## LIMITED SUPPLY ONLY

No more than 100 million Flash Exchange tokens can be in circulation, so its value increases over time as demand grows – its deflationary nature will lead to the increase of buying power over time.

## TRANSPARENT & NON-TAMPERING

As of the early stage of token development, the Flash token is based on Binance Smart Chain, using BEP-20 as its token standard, with a plan to create a cross-chain bridge in the near future (Q2 2023). The peer-to-peer exchange allows transparency of data, and all transactions are non-tampering.

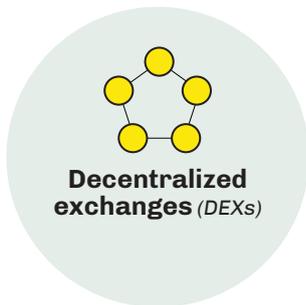

## DECENTRALIZED AUTONOMOUS ORGANIZATION (DAO)

The DAO is a uniquely structured organization where 'decentralization' and 'autonomy' are the heart of it, with a shared goal to create what's best for the entity while sustaining privacy, transparency and security of all digital transactions and activities. In this regard, Flash Exchange token holders are given rights to cast their vote for the betterment of projects relating to the Flash Exchange.

# OVERVIEW

## WHERE DO I GET FLASH EXCHANGE TOKEN?

You can obtain the Flash Exchange token on the following channels:

## FLASH EXCHANGE TOKEN PRICES

As of the initial release of the Flash Exchange tokens, prices would be as follows:

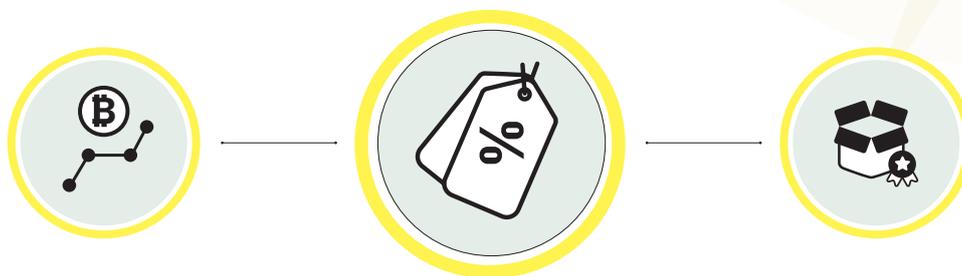

**Presale** starts from **1 USDT / Flash token**

**Public sale** **1.5 USDT / Flash token**

# DISCOUNTS & PRIVILEGES

## DISCOUNT

- Top-tier cryptocurrencies
- High-end products IRL

## PRIVILEGES

- Proof-of-authority: the rights to vote and to participate in our partners' projects
- Access to airport lounges

Having the privilege for special discounts doesn't mean just you can buy cryptocurrencies and your desired products at cheaper prices – here you can also find arbitrage opportunities, which are not accessible by those without the Flash Exchange token.

# HOW DOES FLASH EXCHANGE TOKEN WORK?

**The Flash Exchange token only works with stablecoins in your wallet.**

**To clarify:** it works like a membership/privilege cards you have been using in your real life – you will still need to pay some money, only now with on-top discounts.

**Conditions:**

- 1.** You must possess at least 10 Flash Exchange tokens in your wallet to be able to access benefits in The Flash Exchange platform to get the best rate of cryptocurrencies.
- 2.** The 10 Flash Exchange tokens should be retained in your wallet as a minimum requirement, and you can use the rest of Flash Exchange tokens at the side of other cryptocurrencies to receive discounts on purchase within the platform.

**\*LIMITED USE PER DAY**

In order to maintain a healthy ecosystem of the Flash token, there is a limited use per day on a first-come-first-serve basis.

# APPLICABLE CRYPTOCURRENCIES

Flash Exchange token is applicable to 15 most popular cryptocurrencies at the moment – those with largest market capital.

Bitcoin **BTC**

Ethereum **ETH**

Binance **BNB**

Ripple **XRP**

Cardano **ADA**

Dogecoin **DOGE**

Polygon **MATIC**

Solana **SOL**

Polkadot **DOT**

Shiba Inu **SHIB**

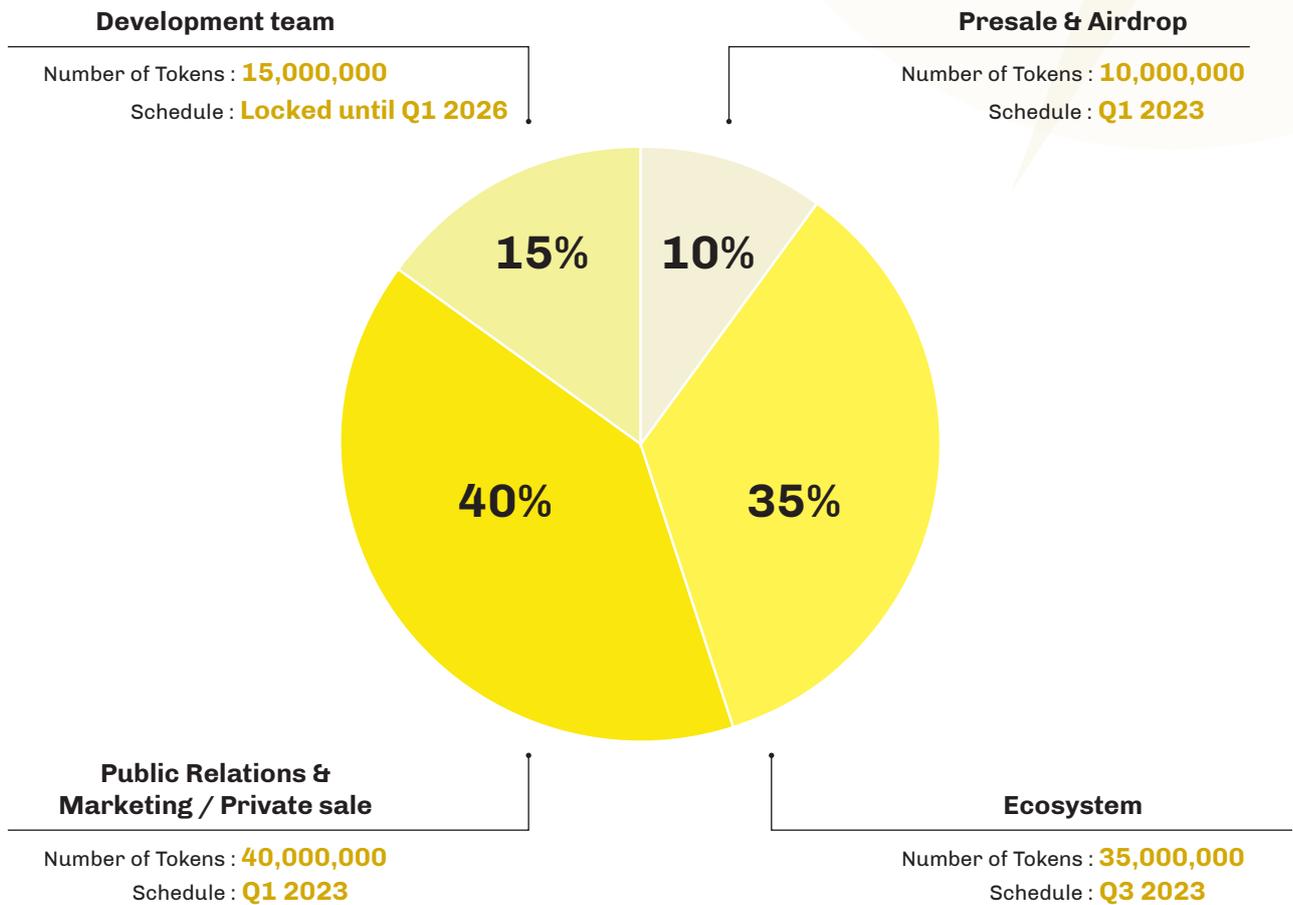

Tron **TRX**

Avalanche **AVAX**

# TOKEN ALLOCATION

The total supply of the Flash Exchange token amounts to 100,000,000 tokens, and there will be no more minting, and they will be allocated for 4 different purposes:
